

THREAT INTELLIGENCE ANALYST | BAHRAIN | FULL-TIME

About us:

ZENDATA is a leading player in the cybersecurity industry, offering services such as complete, fully managed cyber protection, vulnerability assessment, pen testing, and red teaming. With locations in Geneva, Dubai, and Bahrain, ZENDATA provides services to clients globally and collaborates with law enforcement authorities and threat intelligence companies. As an official cybersecurity expert of the Swiss federal government, ZENDATA's expertise is recognized by institutions, businesses, and the media.

Role Description:

We are looking for a Threat Intelligence Analyst to complement our ZEN360 SOC Cyber team in Bahrain and support the overall life cycle of our managed services portfolio.

This role will possess an understanding of cyber threats from espionage, hacktivism, cybercrime, malware, social engineering, geo-political influence, nation-state, and non-state actors, established and emerging intrusion sets, and their relevance to an entity with a global footprint...

Primary Responsibilities:

- Leverage the threat intelligence lifecycle and priority intelligence requirements to track threat actors, research cyber threats, conduct analysis, and create threat intelligence reporting to support ZENDATA clients.
- Perform detailed analysis to identify novel TTPs being used by attackers, from statesponsored cybercriminals to other organized threat actors.
- Analyze external technical and non-technical data from various intelligence sources (paid, open, and closed) to build threat actor profiles and track threat actor activities both externally and internally.
- Research new and emerging vulnerabilities, threat actor's tactics, techniques, and procedures, and conduct threat hunting within the company's environment for the presence of related activity
- Assess and improve the quality of Indicators of Attack and Compromise (IoAs and IoCs) that automatically feed the security tools of ZENDATA's ZEN360 SOC for blocking actions and triggering alerts.
- Prepare and deliver intelligence briefs to a variety of audiences.

Skills and Qualifications:

- 4+ years of professional experience in cyber security.
- Bachelor's degree in IT, cybersecurity, or comparable; relevant Threat Intelligence Certifications such as SANS GIAC GCTI, GCFA, or EC-Council's CTIA, as well as TI vendors certifications and training, are desirable.
- Applied experience with threat analysis models/frameworks such as Cyber Kill Chain, MITRE ATT&CK, Diamond Model, Pyramid of Pain, etc.

+973

- Working knowledge of advanced threat Tactics, Techniques, and Procedures (TTPs).
- You have a profound knowledge of cyber threats and vulnerabilities: how to properly
 identify, triage, and remediate threats based on threat intelligence as well as on the
 analysis of security events, log data, and network traffic
- You have significant experience conducting intelligence analysis, including social network analysis, targeting, technical analysis, attribution, etc.
- You have a deep and current knowledge of Dark Web Networks (TOR, I2P, etc.) and social network monitoring (SOCMINT)
- Able to communicate effectively in English and Arabic through writing, speaking, and presenting to client technical representatives.

Benefits:

- Dynamic and innovative work environment.
- Opportunities for professional development and continuous training.
- Competitive salary package with comprehensive social benefits.
